- Software

Company-profile:

“01 Synergy India” was first pure web development company in India who started web development way back in 1995. Over the years we have grown and taken two other companies in our fold. We have built our expertise and grown from pure web development to software development and consulting, mobile application development, application maintenance and open source implementation.

Our other two arms include

- A Business Process Outsourcing (BPO) unit and
- An Outsourced Software Testing and Quality Assurance (QA) unit.

We have our fully owned subsidiaries in the United Kingdom, The Netherlands and Canada. And our development centers in Pune (HQ), Mumbai and New Delhi.

Some of our key customers include the European subsidiaries of Universal Pictures, 20th Century Fox, DreamWorks, Jetix (a subsidiary of Disney) amongst others.

Products and services:

- Off-shore Software Development
- Managed Offshore facilities
- Offshore Business Process Outsourcing
- Web Design, Website Development & Design (Internet/Intranet), Services
