# Microsoft Technologies Success Story

## e-contor

### Client:

INVERTO AG, Germany

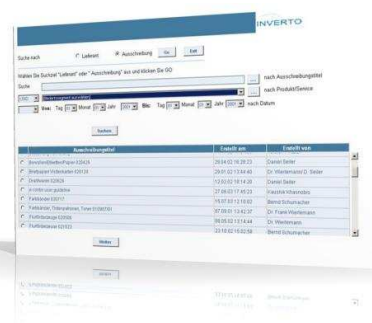

### Business Purpose:

To develop an e-procurement tool to serve domains like retail, pharmaceuticals, automotive supply, logistics and so on.

### Solution:

e-contor offers an easy to use, powerful and efficient web-based technology that remarkably optimizes the strategic sourcing process and can lower the purchasing costs.

### Features:

- Tender Management
- Auction
- Contract Management
- Supplier Management
- Supplier Portal
- Project Management
- Language Management

### Technologies:

#### MS Platform

- ASP, ASP.NET
- SQL Server
- Aspose Excel

**Project Duration:** May 2002 - Dec 2007

**Team size:** 25-30 (including 4 onsite)

### Client Speak

*"The implementation of e-contor on PLUS went very well, thanks to the good work ... The customer is satisfied and so are all of us, who were involved here. All of you have done an excellent job. Keep up the good work..."*

- Dr Kiran Mazumdar, Director, Inverto AG.

**Software Users** (in association with Inverto AG)

## APPOINTMENT CALENDAR

### Client:

Count of Sipoo, Finland

### Business Purpose:

To develop a web based appointment management solution with MS Outlook integration.

### Solution:

The appointment calendar tool provides separate portals for the Officer, the citizens and the admin. It facilitates the citizens to request for an appointment, and reserve free time as per officer availability. Once an appointment is booked, the information is updated in the web calendar which is in sync with MS Outlook.

### Features:

- ASP.Net
- C#
- AJAX
- .NET Framework 3.5
- LINQ
- SQL Server 2005
- TFS
- Windows XP

### Technologies:

#### MS Platform

- Creating an appointment
- Creating free time
- Request for an appointment
- Accept/Reject Request
- Cancel Appointment
- Outlook synchronization

**Project Duration:** January 2009 – July 2009

**Team size:** 3 (all offshore)

### Client Speak

*"Very well done, it was made excellent and just in promised time."* - Sam Allen, IT Manager, County of Sipoo.

## SURVEY PLOTTER

### Client:

Weissman & Cie, Germany

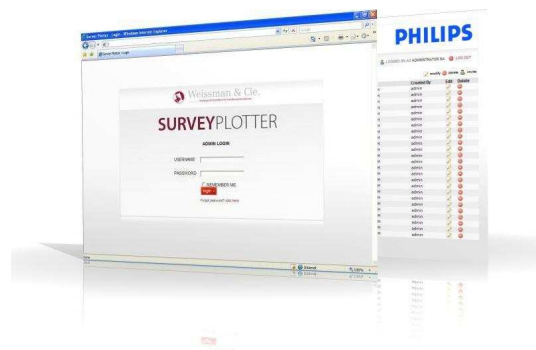

### Business Purpose:

To provide a web based survey software solution for managing feedback through the web. It includes tools for creating global surveys, sending email invitations, analyzing survey data and generating statistical reports.

### Solution:

Survey Plotter is an online survey management solution which provides the above mentioned features and much more. It is conclusive in decision-making, product planning, and research-based analysis.

### Features:

- Visual Studio 2008 Chart Director
- SQL Server 2005Tech: Web Client  
Software Factory
- Repository Factory
- LINQ
- C#
- ASP.net 3.5

### Technologies:

#### MS Platform

- Creation of Survey (Template-based/ Wizard-based)
- Customized Survey Templates
- Survey Invitation
- Survey Participation
- Statistics-based Reports
- Analysis
- Multi-User Support
- Easy Data Access and Management

**Project Duration:** Sep 2008 - Jan 2009

**Team size:** 3 (including 1 onsite)

### Client Speak

*"...Your understanding of the project objectives has been effective. Your engagement in this project has significantly contributed to the success of our whole project... We look forward to have many more projects out of our good cooperation."* - Dr. Alexander Artmann, Strategische Exzellenz für Familienunternehmen, Weissman & Cie.
