Company-profile:

We are a pioneering India-based Internet-solutions company with offices in the UK, US and Dubai. Our unique Full Service Provider (FSP) solutions model brings you the best of the worlds of Offshore Software Development, E-Business Products and Interactive Media with UK-based project and account management.

From a modest beginning of 3 engineers, we have challenged norms, embraced excellence, created a robust-delivery model and with an unwavering focus on our vision we have today evolved to become the preferred Outsourced Product Development (OPD) Partner for Independent Software Vendors / Software Product Companies globally and a preferred IT Partner for end-clients.

Products and services:

Offshore Development Services, CRM, CMS, ERP, E-Learning and E-Business

Technology-exploitation:

Open Source (LAMP, J2EE, Ruby On Rails), C++ (MS C++ and QT), .NET

Know-how:

References:

CRM Systems for BASF, Intranet systems for EMARR (Dubai), CMS System for Watford Football Club PLC plus many other satisfied customers – see http://www.anglertech.com/clients/client_list.html
