**Unternehmensbeschreibung:**

Excelsoft Technologies P Ltd., Mysore was established in 1990 with the aim to be a total learning solutions company and to provide support and value added business services in India and abroad. A single source for all your learning solutions, Excelsoft has also efficiently been involved in developing e-learning custom content, software products and custom applications. The experience and domain expertise gained over the years, has helped position the company in the niche segment of providing e-learning solutions for large projects that need understanding of the application area. They cater to clients ranging from schools and universities (K-12 and HE) as well as the corporate sector.

**Produkte:**

e-Learning Products specialised in Total Learning Solutions
